

SUPPORTING **POWERFUL** PROGRAMS THROUGHOUT **ARIZONA**

For more than 20 years, **BHHS Legacy Foundation** has supported organizations that improve health and quality of life in Greater Phoenix and the Tri-State region of northern Arizona.

The Foundation was funded from the sale of Baptist Hospitals and Health Systems in 2000, so proceeds from the transaction would continue to help those in the areas the facilities serve.

Since then, BHHS Legacy Foundation has **invested more than \$130 million** to support nonprofits and programs in these communities.

BHHS Legacy Foundation **funds grants** to health-related programs, **nurtures collaborative partnerships**, and **raises funds** through Legacy Connection to support community organizations.

Last year, BHHS Legacy Foundation awarded more than \$6.7 million in grants. Below are some ways the Foundation helped in 2022.

Restored
Healthy
Smiles

Built
Confidence
in Kids

Created
